PROJECTS

Nihongo Learning(Study Guide) ⧉   Feb 2024 – Mar 2024
- The Nihongo Learning project aims to provide a Japanese language study guide for all levels. It features structured lessons, interactive quizzes, and responsive design using HTML, CSS, JavaScript, and Bootstrap. It provides comprehensive information on exam patterns, marks allocation, and more.

Music Store Management System ⧉   Apr 2023 – May 2023
- Developed Music Store Management System using JDBC and Oracle. Features include user authentication, CRUD operations, search functionality, order management, and intuitive UI design. Ensured data integrity, error handling, and validation. Enhanced skills in Java programming, database management, and software development lifecycle.

Online Clothing Store ⧉   Dec 2023 – Feb 2023
- An online clothing store using the MERN stack includes a responsive design, personalized recommendations, secure payments, efficient shipping, dynamic UI. I developed this application , utilizing the MERN stack—MongoDB, Express.js, React.js, and Node.js, to build responsive, secure, and feature-rich online clothing store.

PROFESSIONAL EXPERIENCE

Intern at Initz Technologies   Aug 2023 – Sep 2023 | Coimbatore
- As part of my internship at Initz Technologies, Coimbatore, I led the development of the Blood Donor Management System. This involved designing the database, creating the user interface, and implementing core functionalities. The project enhanced my skills in software development, database management, and teamwork.
